Hello Chris

hope things going well, just arrived from Florida from vacation.

I was informed by Ralph Kofler that he would like to add two more topics to the agenda

- proposal for a FFH certification process without 40°F criteria

- bench aging for diesel aftertreatment systems

ideally we would like to meet with Link, Marty and you.
I remember that last time we talked it was not certain whether Link and Marty will participate.
Would you be so kind and check for me about their participation status.

Thank you so much.

Andreas

With best regards
